

Jane

I am an animal lover, married to a great guy; we have 2 grown and on their own children, our daughter and son-in-law that have a cat and dog, and our son.

I have 2 cats, Liberty and Casey, and a golden retriever, Maddie. I also got my first horse about a year ago, he is a Morgan named Rymlo who is very patient and a great teacher even though he is a 'baby' himself.

I've worked in many varied work places while my kids were growing up so I was able to meet my kids needs. Once they were grown I went back to school for the paralegal program. I worked in law for some years and most recently I worked for a home and auto insurance company. During that time we got our puppy, Maddie. I got involved in a training program and ended

up assisting the instructor in the Beginners class. I decided to enroll in a program to become a certified dog trainer. After very rigorous and involved classes I finally completed the course, final exam and graduated, receiving my certificate as a Certified Dog Trainer.

After 8 years of working in the insurance field, I am delighted to say I changed jobs and am currently working at a job for which I have had a life long passion, working with dogs/pets. It is like a dream come true for me. The people I work with are awesome and we have a great boss. I am very thankful for this once in a lifetime opportunity and look forward to many years of working with great people and lots of wonderful fuzzy, furry faces.
